BITHM University College

23/A M.M. Ali Road, Mehedhibagh, Golpahar Moor,

Chittagong, Bangladesh.

**Subject: Application for the Post. of Computer Science and Engineering (Lecturer Position)**

Dear Sir,

Find enclosed a copy of my **curricular vitae, passport size photo as well as certificates**. I would like you to review it and consider my qualifications match up for a University Lecturer. My experience as a motivational speaker is unparalleled consisting of a broad range of successfully presented topics in a number of educational and corporate venues. I hold a **B.Sc. Degree in Computer Science and Engineering from Rajshahi University of Engineering & Technology** and have presentation experience in several conferences and project works.

My communicative abilities have been a boon as a university lecturer. I was already comfortable and competent with public and informative speaking when I began to deliver my presentation on numerous conferences held in DUET, BUET, UIU and so on. I strive to find exciting methods for managing intellectually stimulating ways to disseminate information through the many media channels available today, especially with the growth of online teaching. Of course, I am also adept at administering coursework and exams. I like to keep regular office hours for engaging with students and other educators to ensure I am always on the right page when it comes to needs and practices.

I would appreciate the chance to come in for an interview. We can talk more about your University lecturer position and how I would get behind that podium and inspire tomorrow's leaders today.

Yours Sincerely,

Arafat Hossain
